

The Firelands Amateur Repeater Association, INC.

WWW.WB8LLY.org

Membership Application/ Renewal

The Firelands Amateur Repeater Association (FARA) is an association of amateur radio operators and their families in North Central Ohio, that is dedicated to the operation and maintenance of a repeater system that serves North Central Ohio. FARA sponsors the 146.805 repeater system located on the second highest point in Erie County south of Berlin Heights. FARA is involved with Skywarn, a program that works with the National Weather Service at Cleveland. During times of severe weather, nets are called into action by NWS and information is pooled and relayed to them for confirmation of radar reports.

As a member of FARA you will have full voting privileges and long-distance autopatch access through auto-dial slots with toll free calls to Huron, Berlin Heights, and Norwalk. Calls to other locations are the responsibility of the member calling. Members are allowed two auto-dial slots.

We meet January thru November on the fourth Tuesday at the Erie County Services Center, 2900 Columbus Ave. Sandusky at 7:00 p.m. in the basement lunch room.

Membership is \$10.00 a year for an individual and includes all other licensed amateurs in the household.

Name: _____ **Call:** _____

Street/Apt/Box#: _____ **County:** _____

City, State, Zip(+4 if known): _____
